# Catania Airport

### For Noto, Aeolian Island and Agrigento (in a rucksack or small hand luggage):

- Bathing suit;
- Flip flops (for beaches and boats only-not for restaurants ever);
- Sunblock cream;
- Water shoes for rocky beaches and cliffs;
- Sun glasses;
- A sun hat or cap.

### For the Etna Tour - some good recommendations:

- Wear comfortable and season-appropriate clothes (spring) and dress in layers;
- Bring an extra jacket;
- Wear a pair of sport or hiking shoes with a good grippy sole;
- Bring with you a backpack with anything you can need (water, sunblock).

**Electricity** – In Sicily, as in all of Italy, the electrical voltage is 220-240V, while in the United States it is 115-120V. This means that electrical appliances designed for use in US might not work properly in Italy without the use of a voltage adapter. Plugs have 2 or 3 prongs that are round, not flat; therefore, an adapter plug is also needed.

### Useful contacts:
